Curriculum Enrichment

As the school year is starting to wind down, so are this year's Curriculum Enrichment programs. The second grade will receive a visit from Massachusetts Horticulture on Habitat and

Ecosystems. This will be the last of the CE programming for the year and we're looking forward to next year! A huge thank you to all the parent CE volunteers who assisted in planning this years programming, we could not have done it without your support!

Chickering GROWS

Thank you all for your incredible support of the Chickering GROWS program in its inaugural year! For those who signed up to receive a birdhouse, kits will be available for pick up at Chickering this Thursday and Friday, June 10th and 11th. Birdhouses will be organized by grade (and siblings bound together) in boxes outside of school. To see these amazing

birdhouses and learn more about the "GROWS Gives Back: The Birdhouse Project" as well as our tomato and basil gardens in action, please visit our Padlets on the Chickering GROWS website here: <https://www.doverpto.org/chickering-grows>.

Chickering Outdoor Classroom, starting with an in-person Fair Turp Bulb project at school. A fairy garden has already been added to the space, so please stop by and check it out the next time you are at Chickering!

If you have any questions about the program, please contact Kim Hall, PTO Community Outreach Chair, at community@dovertpto.org, or Jamie Godfrey, Chickering GROWS Coordinator, at jamiedgodfrey@gmail.com.

We are excited to continue to GROW with you,
Kim & Jamie
